Charli XCX, Focus

I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my

I just wanna you to focus
pull me in, pull me closer
give me the diagnosis
blow my mind like explosions
just one touch leaves me helpless
on repeat like it’s endless

bedsheets turn a white dress
look so good, damn you did this

I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my

want 100% of your attention
want 100% so I’m in heaven
want 100% of your attention
keep watching my eyes
want you to realize

I just wanna you to focus
better keep your composure
like you tryna earn that diploma
do it over and over
make it pop, coca-cola
keep it hot, Barcelona

bedsheets turn a white dress
look so good, damn you did this

I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
I just wanna you to focus on my love
just focus on my
