

112, Its Over Now

What is this numbers in your pocket?
I remember when you used to throw those things away
why do u want to keep in touch now
who gave you a reason to act so shady
baby you know you can call me anytime
anything you needed i would give it to you
oow thats how much i care for you
wanna act now never call me back now
turning off your cell phone girl you know it aint cool
i dont understand baby

(chorus)

baby its a shame we gotta go through this
we cant even talk girl we dont even kiss
i never wouldve thought we'de be breaking up like this
but its over now

its over now

you think that i dont know whats going on
cause your always home alone
and im always out of town
you need to stop trying to play me
cause you cant even faze me
i know you messing around
baby you know you can call me anytime
anything you needed i would give it to you
oow thats how much i care for you
wanna act now never call me back now
turning off your cell phone girl you know it aint cool
i dont understand baby

(chorus 2x)

baby its a shame
shame that we go through
things that we go through
when you're in love with me and im in love with you
i think that we should talk
talk about our problems
instead of running away
ohh baby its a shame we couldnt work it out
forgot what love was all about
and our feelings we had from the start
my heart will always be with you

girl its a shame

(chorus 3x)
