

# 4JET, Holiday

I've been looking for long wild  
Someone I could kick off to enjoy my time  
My time my time  
You've been looking so good, girl  
You walked in the room  
And you blow my mind  
my mind  
my mind

can't let have my head around it  
I'm on your lid baby  
There's no need to talk about it  
Let's the night began  
Base slow  
Bomb loud  
Speaker outload  
Everybody burgeon up  
One night

Let's turn the lights on  
The light on now  
Let's turn the music  
Let's get dawn  
We don't need the reason to celebrate  
Everybody's like, every day is a holiday

Pop up this battles that's how we do  
Bring it all models  
All eyes on you  
We don't need the reason to celebrate  
Everybody's like, every day is a holiday
