## A.B. Quintanilla y Los Kumbia Kings, I Need Your

Yo, yo, yo, yo, yo Yeah, c'mon, c'mon Millennium, millennium

Here we go, yo, here we go, yo

I need you

I need you

I need your love and touch tonight

To feel your body next to mine

Kiss you all from head to toe

I need you, I need you

I need your love and touch tonight

To feel your body next to mine

Kiss you all from head to toe

I need you, I need you

Wanna picture you and I together in this paradise

It don't matter really where we go or where we at I'm feeling right

'Cause I remember you were down with me

To be with me and care for me

You could get with me across the world and stay this way sincerity

'Cause that when it comes to you, I'd do anything

Anytime or the place, you know that I'll be there

Should have thought before you came and stepped to me

Now listen close, this is what I mean

I need your love and touch tonight

To feel your body next to mine

Kiss you all from head to toe

I need you, I need you

I need your love and touch tonight

To feel your body next to mine

Kiss you all from head to toe

I need you, I need you

I wish I could just let you know that I want to keep it real

We could keep it on the down-low, let me know whatever you feel

You know I want you for my lady and baby you drive me wild

You drive me crazy, just stay with me a little while

Oh, I know that you've been hurt and even played before

Don't you worry 'bout a thing 'cause I won't do you wrong

Just understand babe

You got me babe, just be my lady

I need your love and touch tonight

To feel your body next to mine

Kiss you all from head to toe

I need you, I need you

I need your love and touch tonight

To feel your body next to mine

Kiss you all from head to toe

I need you, I need you

I like to make love to you from the down romantic tone

Step into my room girl and if you didn't know now you know

Call it, call it what you want

Spend the rest of my life with you until the day that I'm gone

Bring that flavor favorite, gone go 'head so stop that praying

I'll be the late guy here to take you girl from a that hate

So baby when you're praying, I'll be the big thing, taste it

So won't you gone giddy up, you know girl I'll be the next to you baby

I need your love and touch tonight

To feel your body next to mine

Kiss you all from head to toe

I need you, I need you

I need your love and touch tonight

To feel your body next to mine

Kiss you all from head to toe

I need you, I need you

I need your love and touch tonight

To feel your body next to mine Kiss you all from head to toe I need you, I need you
