

A vain attempt, You broke my heart

[Youuuuu!]

You know that I want you

[I want you]

Every day

you know that I miss you

[I miss you]

By my side

You brokes my heart and you broked my life too

She is proud because she broked up with me too

[me too]

So take my advice wherever you lies and made me alone

Couse when you're dead

[when you're dead]

I'll write to you

You brokes my heart and you broke my life too

She is proud because she broked up with me too

[me too]

You know that I want you

[I want you]

Every day

You know that I miss you

[I miss you]

By my side

You brokes my heart and you broked my life too

She is proud because she broked up with me too

[me too]

She broked when I tried to when I befallled

Whenever time we touch I get this feeling

[that's not for me]

You brokes my heart and you broked my life too

She is proud because she broked up with me too

[me too]
