

Aaron Lewis, Let's Go Fishing

Got to work two jobs and rob a bank
To put food on the table and gas in your tank
And everybody knows who's to blame
But I ain't gonna worry about none of that shit today

So let's go fishin', let's go wishin'
On a star in the dark in the middle of the night
The world's gone crazy and the shit ain't right
Let's go runnin', a little backwoods hidin'
It's all so fucked up I can't stand it
Let's go Karen, let's go Brandon
And let's go fishin'

We can make America great again
Turn right on a two track and turn off CNN

And let's go fishin', let's go wishin'
On a star in the dark in the middle of the night
The world's gone crazy and the shit ain't right
Let's go runnin', a little backwoods hidin'
It's all so fucked up I can't stand it
Let's go Karen, let's go Brandon
And let's go fishin'
Let's go fishin'

Take a foot off the gas
This ain't a Nascar race
Just kick it on back
With a smile on your face

And let's go fishin', let's go wishin'
On a star in the dark in the middle of the night
The world's gone crazy and the shit ain't right
Let's go runnin', a little backwoods hidin'
It's all so fucked up I can't stand it
Let's go Karen, let's go Brandon
And let's go fishin'
Let's go fishin'
