

Abandoned Pools, Blood

i see the happy family tree
it sways so easily
we're smiling all the time
this world just isn't mine

we watch it burn
and we never learn
this can't be what your waiting for
staring into the sun
we eat our young
this can't be what your waiting for

just take it easy on yourself
forget all the stupid things you say
i know you beat up on your self
i know, i know it's in your blood

you say what no one understands
the seeds are in your hands
the branches break your bones
i can't just leave you alone

and watch you squirm
and we never learn
this can't be what your waiting for
staring into the sun
we eat our young
this can't be what you're waiting for

just take it easy on yourself
forget all the stupid things you say
i know you beat up on your self
i know, i know it's in your blood
i know, i know it's in your blood
it's in your blood

and i can't bring myself to look
i rip the pages from the book
and watch it burn
and we never learn
this can't be what your waiting for
staring into the sun
we eat our young
this cant be what your waiting for

and i can't bring me self to look
i rip the pages from the book
and watch it burn
and we never learn
this cant be what your waiting for
staring into the sun
we eat our young
this cant be what your waiting for

and i can't bring myself to look
i rip the pages from the book
and watch it burn
and we never learn
this can't be what your waiting for
staring into the sun
we eat our young
this cant be what you're waiting for

just take it easy on yourself

forget all the stupid things you say
i know you beat up on your self
i know, i know it's in your blood
i know, i know it,s in your blood
it's in your blood
i know, i know it's in your blood
it's in your blood
i know, i know it's in your blood
it's in your blood
