

Abney Park, Transcendence

I breached from darkness
I saw the day
And I'm awake
Held down by darkness
I found a way
To transcend my fate
I took a step toward the light of day
I took a step toward the light of day
Is it my destiny to transcend my fate?
Is it my destiny to transcend my fate?
I've fled the darkness
A broken phase
Torn a part by fate
I fucking hate this
Self-serving cage
Of artificial rage
I have left them all to their masquerade
I have left them all to their masquerade
Is it my destiny to transcend my fate?
Is it my destiny to transcend my fate?
I have breached the darkness
Held back by darkness
I'm awake
