

Aborted, Skullfuck Crescendo

(music: nick, aborted; lyrics: nick)

Abraising your eye socket walls
imploding your eyeballs
orgasm piercing through your brain
shining cum, perforating pain

I pull the trigger and I cum
with your head spreared on my gun
observe the metal coming near
the gory end of your moral fear

Riot-f**k the faecial breed
Hallowed be this cleansing dead
Frightened face splits wide open
Sickly pleased I shoot again

Cranium spread all over the floor
Chunks of brain slide from the door
i could kill every last one of you

Skullf**k you all is what I'll do
