

# Accept, Breake The Ice

Day after day  
I'm beginning to realize  
The torture and pain  
Are we going insane

Our vibrations  
May be the push we need  
We're restless at heart burnin' inside  
Throwing it all away

There's a message in our life  
It makes me wonder why  
There's a vibe we can't deny

That's why we must  
Break the ice - leave all the rest behind  
Break the ice - and try in a way to hold on and stay  
Break the ice - we know we can't deny  
Break the ice - by taking the chance we're breakin' away

We gotta follow the lead  
It's all part of the give and take  
Where anything goes  
Our spirits will shine

I won't be long  
Before we realize  
That we've given in  
To the power of love - yes we do

There's a message in our life  
It makes me wonder why  
There's a vibe we can't deny

That's why we must  
Break the ice - leave all the rest behind  
Break the ice - we're throwing away what more can I say  
Break the ice - leave it all behind  
Break the ice

It doesn't help to cry  
No need to wonder why  
We hold it all in hand  
Needless to say - needless to say

Break the ice - ice

We must  
Break the ice - leave all the rest behind  
Break the ice - and try in our way to hold on and stay

We must  
Break the ice - we know we can't deny  
Break the ice - by takin' a chance we're breaking away

Break the ice
