

# Accept, Helldriver

Hey man, you're crazy - you're looking so bad  
Your body looks perfect - your face like a rat  
You are a loser - only shit in your head  
You are a fighter - a devil in bed

Helldriver - come to me  
Stay with me - drive on with me  
Helldriver - come to me  
Stay with me - that's all

Driving the speedway like a superstar  
The wheels are turning - you are the sham in your car  
The engine is burning - it seems to explode  
You know you're winner - the king of the road

Helldriver - come to me  
Stay with me - drive on with me  
Helldriver - come to me  
Stay with me - that's all

Blood on the speedway and blood in your face  
The engine is broken - the end of the race  
Your life was dead long - the edge of the knife  
You thought you're the winner - and you're never arrived

Helldriver - come to me  
Stay with me - drive on with me  
Helldriver - come to me  
Stay with me - that's all
