

# Accept, Love Child

Everyone is telling me that he was born as a love child  
By looking in his eyes something turned me lose in his hot  
nights

Feeling the power of lost when the guy's passing by  
Wrecking one's brain and I'm going insane don't know why  
I can feel your sex winding up the girl in the red dress  
And my brain is gone, what is going on, I'm burning inside

Feeling the power of lost when the guy's passing by  
Wrecking one's brain and I'm going insane don't know why

A love child, running wild a love child

A love child, running wild a love child - love child

I gotta tell myself that he was born as a love child

And the story of his way should not make me stay in the hot  
night

Feeling the power of lost when the guy's passing by  
Wrecking one's brain and I'm going insane don't know why

A love child, running wild a love child

A love child, running wild a love child - love child

Don't know what I am

A woman or a man

Many troubles behind me

I'm doing all I can

But I'm what I am

Leave me alone - don't mistreat me

Feeling the power of lost when the guy's passing by

Wrecking one's brain and I'm going insane don't know why

A love child, running wild a love child
