

# Accept, Sodom & Gomorra

Ever since the stone-age  
Man's been on the hunt  
We were born to kill

Fighting for survival  
All in self-defence  
It was do or die

Now we're living in jungles  
The concrete age  
A maximum overdose of pleasure and pain

Self-inflicted - life corrupting  
Antisocial - controversial - living in sin

Sodom and Gomorra  
Let me tell you what I see  
Sodom and Gomorra

Got not law and order  
Ruled by anarchy  
It's here to stay

Chaos in the classroom  
Kids are killing kids  
Getting outta hand

Mothers and fathers - the sickening ones  
Raping the children  
At the end of a gun

Self-inflicted - life corrupting  
Antisocial - controversial - living in sin

Sodom and Gomorra  
Let me tell you what I see  
Sodom and Gomorra  
We're in a burning hell for all eternity

Sodom and Gomorra  
You mustn't look back  
To Sodom and Gomorra  
Don't you look back -  
to the essence of evil

This universe of hatred  
Aggression is the force  
Heading for oblivion  
We're on collision-course

Evolution's over  
The devil has prevailed  
Heaven screams for vengeance  
This is judgement day

Self-inflicted - life corrupting  
Antisocial - controversial - living in sin

Sodom and Gomorra  
Let me tell you what I see  
Sodom and Gomorra  
Forever ruled by anarchy

Sodom and Gomorra

Forever damned to purgatory  
Sodom and Gomorra
