Accept, Sodom & Gomorra

Ever since the stone-age Man's been on the hunt We were born to kill

Fighting for survival All in self-defence It was do or die

Now we're living in jungles The concrete age A maximum overdose of pleasure and pain

Self-inflicted - life corrupting Antisocial - controversial - living in sin

Sodom and Gomorra Let me tell you what I see Sodom and Gomorra

Got not law and order Ruled by anarchy It's here to stay

Chaos in the classroom Kids are killing kids Getting outta hand

Mothers and fathers - the sickening ones Raping the children At the end of a gun

Self-inflicted - life corrupting Antisocial - controversial - living in sin

Sodom and Gomorra Let me tell you what I see Sodom and Gomorra We're in a burning hell for all eternity

Sodom and Gomorra You mustn't look back To Sodom and Gomorra Don't you look back to the essence of evil

This universe of hatred Aggression is the force Heading for oblivion We're on collision-course

Evolution's over The devil has prevailed Heaven screams for vengeance This is judgement day

Self-inflicted - life corrupting Antisocial - controversial - living in sin

Sodom and Gomorra Let me tell you what I see Sodom and Gomorra Forever ruled by anarchy

Sodom and Gomorra

Forever damned to purgatory Sodom and Gomorra
