

# Accept, Stand 4 What U R

Stand for what you are  
Trust in what you're fighting for  
No time on looking back  
You're on your own

Stand for what you are  
Trust in what you're living for  
Open up the door no time for looking back  
You're on your own

You say that time's been passing by  
Feeling there is nothing concrete  
Living for the moment  
Blinded by your dreams

All you're saying you can't hold on  
It's getting harder every day  
You can't change who you are  
Something you gotta face

You fell for promises  
No one really ever made  
Invisible pictures come true

Going through changes  
Hoping that they never fade  
Hold on don't reach for the stars

Stand for what you are  
Trust in what you're fighting for  
No time on looking back  
You're on your own

Stand for what you are  
Trust in what you're living for  
Open up the door no time for looking back  
You're on your own - on your own

Can't stop time's been passing by  
It's like living on a one way street  
Stop trying to escape from the real world  
And hanging by your string

Still you're saying you can't hold on  
It's getting harder every day  
You should know what you are  
You better find your own place

Stand for what you are  
Trust in what you're fighting for  
No time on looking back  
You're on your own

Stand for what you are  
Trust in what you're living for  
Open up the door no time for looking back  
You're on your own - on your own

You gotta stand for what you are  
Trust in what you're fighting for  
No time on looking back  
You're on your own

You gotta stand for what you are

Trust in what you're fighting for  
You gotta face it - make it on your own  
You gotta face it - make it on your own

Stand for what you are
