Accept, Stand Tight

My bones are trembling Veins are filled with ice I see you swagger through Your boots are shiny, too

I still feel your torture Messing up my life I cannot forget How you showed me your despise

Deep down in the gravel
I lie and wait for relieve
And I hear the orders you scream
Sounds like a choir to me

Stand tight - all right
And assume the position - we all stand together
Stand tight - all right
And assume the position - we all stand together

I know I am unconscious Just what you like to see You say you've got to drill me And you let me kiss your gun

I have to clean your boots In every way you like You deny my human rights You don't make it easy

And I am so down So devoted and humbled to you What more can a slave remain Before he floods away

Stand tight - all right
And assume the position - we all stand together
Stand tight - all right
And assume the position - we all stand together

Stand tight - all right

- we all stand together
- all right
- we all stand together
- all right
- we all stand together
- all right
- we all stand together
