Act Fast, For The Better

You knew you were right-until I proved you wrong
You knew you were on track-till I showed you that you were lost
You knew that things were going good-till I showed you what life's really like
You're not everything you thought you were

chorus
It's not too late, not yet at least
You can always change for the better

I'm not saying it's easy, but neither is life
You've noticed your mistakes, it's time to make a change

You knew you weren't right - when I showed you how bad you were
You knew you were lost - but I told you how to get back on track
You knew things weren't good - when I showed you your life
Do you notice the mistakes you've made
