

# Act Fast, Mp3

I remember when it was you and me  
Singing all the songs in perfect harmony  
Living life with you by my side  
Life in pain, happiness, misery, it's all the same

And I'm alone again

How do you know when I'm upset

How do you know when I am low  
Was it like this the whole damn time  
Back when I thought that you were only mine

Good things come and old things go  
My life's a misery and it goes so slow  
I need you by my side....
