

Act Fast, What

Act Fast
Act Fast
What
It's not what you'd expect
This time it's for real
And no one can make the decision for you
I can't help you now
Neither can your friends
It's up to you and only you
Only you

chorus
Please don't go
Away
You've come so far
I'm asking you to stay
Please don't go
You've come too far to walk away
Please don't go
