

Act Fast, What

Act Fast

Act Fast

What

It's not what you'd expect

This time it's for real

And no one can make the decision for you

I can't help you now

Neither can your friends

It's up to you and only you

Only you

chorus

Please don't go

Away

You've come so far

I'm asking you to stay

Please don't go

You've come too far to walk away

Please don't go
