

# Adam Lambert, The Original High

I got the need for speeding on a hot night  
Pushing 150 just to be a race  
There's no comfort in comfort I need the edge  
But the edge keeps drifting it's all in my head  
Remember back in Hollywood  
The medication flowing through my veins was you  
The summer back in Hollywood  
The medication, medication

Just let me feel the rush like the first night  
Wanna breathe it out cause I'm going out my mind  
Gotta feel the touch like the first time  
Cause I'm chasing the original high  
Chasing the original high  
Chasing the original high  
Chasing the original high  
Chasing the original high

I'm tryin to buy a fix but there ain't no price  
I try to feed the hunger that keeps me up at night  
We were on a trip tryna replicate  
But the highs I hit just ain't doin it for me  
Remember back in Hollywood  
The medication flowing through my veins was you  
The summer back in Hollywood  
The medication, medication

Just let me feel the rush like the first night  
Wanna breathe it out cause I'm going out my mind  
Gotta feel the touch like the first time  
Cause I'm chasing the original high  
Chasing the original high  
Chasing the original high  
Chasing the original high
