

# Adrian Belew, People

People fly  
People flee  
People clam and say &&quot;it wasn't me&&quot;;  
People fish  
People beef  
People arm to the teeth  
Yes, you've got people on the tube,  
Walking on the moon  
People at the bottom of the sea  
People in tombs  
People in igloos  
Even a tribe of pygmies

People are the main spring  
Turning the world around  
People, they're the main spring  
Spinning this world upside down

People sun  
People toast  
People tire while other people smoke  
People bowl  
People rock  
People pay to see two people box

Watch me, face me  
Dress me, baby me  
Phone me, wire me  
House me  
Bug me  
Fire me

People are the main spring  
Spinning the world around  
People, they're the main spring  
Turning this world inside out
