

aespa, Next Level (Habstrakt Remix)

I am on the next level
I follow the absolute rules
Don't let go of my hand
Unity is my weapon
I walk to Kwangya
I know your ground
Confront the threat
Beat it /3x

An unexpected black out
The temptation is deep and strong
Too hot /2x

Letting go of the hands held together
But I'll never give up

I am on the next level
I open the door over there
next level
I will destroy you
