

Afrojack, SummerThing! (ft. Mike Taylor)

I don't wanna write this love song
I, I'm fighting this urge
What you make me say: uuu
Damn! 'Cause I, I can't find the words
I don't wanna write this love song
Just wanna dance all night till it hurts
But you make me say: uuu
Damn! 'Cause I, I can't find the words!

You stole my heart we had a summerthing
And I told my heart it was just a summerthing!

But you made me fall in the winter,
Bloom in the spring
From June 'till December
It was you and me!
And I told my heart it was just a summerthing,
That it was a summerthing!

This, this ain't no love song, it's just a little game baby
I just wanna go
'Cause you, you're so pretty baby!
This, this ain't no love song, just wanna watch you dance sexy baby
I just wanna go
Damn, now safe it if you let me baby!

You stole my heart, we had a summerthing!
and I told my heart it was just a summerthing!

But you made me fall in the winter,
Bloom in the spring
From June 'till December
It was you and me!
And I told my heart it was just a summerthing,
That it was a summerthing!

I will always remember the summer, the summerthing
You'll always remember the summer, the summerthing!
I will always remember the summer, the summerthing
You'll always remember the summer, the summerthing!

You stole my heart, we had a summerthing!
and I told my heart it was just a summerthing!

But you made me fall in the winter,
Bloom in the spring
From June 'till December
It was you and me!
And I told my heart it was just a summerthing,
That it was a summerthing!
