

Afrojack, Wave Your Flag (ft. Luis Fonsi)

I'm color blind
Color blind to the whole world
All I see is love
I walk around with it all over my shoulders
For the both of us
I'm traveling
Traveling man
Love the universe
Anyway I can
I'll be gone /2x
Till November
Girl, I hope you understand

I'm a rolling
Rolling stone
Where I lay my head is my home
I don't wanna see you cry no more
Just be who you're
When they tell you:
You don't matter
Tell them:
You're the only one thing that matters
Say it loud! /2x

Wave your flag
Anywhere you go /2x
You're not alone
Wave your flag
When the world gets cold
And you feel alone
You're not alone
Now wave it /3x

Summertime
Summertime, can you feel it?
Love is in the air
Another day full of hope
You can breath it
World is in your hand
Come on
Follow me /2x
And I'll show you what you deserve
We can do /2x
What you wanna
Play it all back in reverse

I'm a rolling
Rolling stone
Where I lay my head is my home
I don't wanna see you cry no more
Just be who you're
When they tell you:
You don't matter
Tell them:
You're the only one thing that matters
Say it loud! /2x

Wave your flag
Anywhere you go /2x
You're not alone
Wave your flag
When the world gets cold
And you feel alone
You're not alone

Now wave it /3x
