

Aitch, Party Round My Place (feat. Avelino)

(One man, one man, she nuh waan more man
One man, one man, she nuh waan more man
One man, one man, she nuh waan more man)

(Party 'round my place
Party 'round my place
You should roll, we can party 'round my place)

Yeah, cute face, slim waist, thighs thicker
Wine sipper, my type, I'm liking her
Might spend a big cake, that's my dinner
Likes it when I slide in her, mine's bigger
Show stopper, Patrón popper, the flow's hotter
He gotta go, show you what I got in my own locker
Head to toe she be glowin', look at the pose on her
This girl'll change me, I'm pullin' up with a rose for her
Just tell me what you need then it's there
Can I pull it when I hit, is it weave or your hair?
Walk up in the party, did you see who was there?
Plus they know when I'm about, can smell the trees in the air
Yeah, so all my G's make a toast
Tell a hater what you mean, I'm the GOAT
Gettin' no sleep, fam I barely get to breathe, it's a joke
But it's life 'cause my team do the most, go

I know we do the most
But we got a long way to go
She wanna leave, hit the road
'Cause we got a long way to go
Party 'round my place
Girl, we can party 'round my place
Always a party 'round my place
You should roll, we can party 'round my place

Yeah, let's go, yo
Three o' clock in the morning, fumin' the party's over
You can see how I'm moving, surely I can't be sober
Pullin' up, movin' stupid, I'm tryna park the Rover
Gettin' distracted, your missus is tryna arch it over
Baby girl, behave yourself
Too much liquor I told her, but she didn't take it well
Had to swerve her, I'm duckin', I gotta save myself
Movin' reckless, you're crazy, even your mate can tell
I don't want no sparkles on my drink
Baby, I just wanna sip it till I find it hard to think
I give you the eyes, I swear it started as a hint
'Member tellin' you if you not livin' far then we can link
Try, try but them brothers ain't me
Fly but the bookings ain't cheap
Gyal I see you shine, looking fine, took her to the AP
Say she mine but she lovin' AV

I know we do the most
But we got a long way to go
She wanna leave, hit the road
'Cause we got a long way to go
Party 'round my place
Girl, we can party 'round my place
Always a party 'round my place
You should roll, we can party 'round my place

(One man, one man, she nuh waan more man
One man, one man, she nuh waan more man
One man, one man, she nuh waan more man)

Cud a Christian, Rasta, cud a Mormon)

One man, one man, she nuh waan more man

Probably with a Cassie in mi casa
Do it like I'm Diddy, she don't want another rapper
Girl, I'm just a local, I done made it up the ladder
We can never split the bill, baby that just doesn't add up
We can wine and dine another day
Work hard, play hard, baby, I just wanna play
Spend a liddle dime for these diamonds on my chain
Catch flights not feelings, baby, I'm the one who pays
Got another Roley from the store
And I still roll with it when I'm only with the jawn
I perform better when I don't need to perform
Uptown, baby, yeah they know me in the North, yeah

I know we do the most
But we got a long way to go
She wanna leave, hit the road
'Cause we got a long way to go
Party 'round my place
Girl, we can party 'round my place
Always a party 'round my place
You should roll, we can party 'round my place

I know we do the most
But we got a long way to go
She wanna leave, hit the road
'Cause we got a long way to go
Party 'round my place
Girl, we can party 'round my place
Always a party 'round my place
You should roll, we can party 'round my place
(Let's go)
