

# AJ Mitchell, Down In Flames

what you're feeling now is a sudden rush  
getting mad, lashing out but i think it's love  
we don't talk for days, try to reach your phone  
so I am done making plans when you call it off  
I don't know what to say  
baby is it too late?  
we just need to trust  
and not mess it up  
sit it down talk it out just the 2 of us

so don't be afraid if the room gets hotter  
I'll be putting this putting this fire out  
we'll be putting this fire out

don't /4x  
let it go down  
don't let it go down in flames  
know we'll find the exit sign  
and we're gonna be okay  
the smoke in the air is gonna lead nowhere  
I won't let  
won't let it go down in flames

if you need your space  
I'll give you a break  
give you time on your own just to clean your head  
but when you say go  
think you mean to stay  
I'll be here till the end iwon't go away

don't be afraid if the room gets hotter  
I'll be putting this putting this fire out  
we'll be putting this fire out

don't /4x  
let it go down  
don't let it go down in flames  
know we'll find the exit sign  
and we're gonna be okay  
the smoke in the air is gonna lead nowhere  
I won't let  
won't let it go down in flames

it's like our hearts out of focus  
and we didn't even notice  
I won't let you down  
I won't let you down again  
what we've built isn't broken  
but it can happened in a moment  
and there ain't no way to burn  
when the fire's out

don't /4x  
let it go down  
don't let it go down in flames  
know we'll find the exit sign  
and we're gonna be okay  
the smoke in the air is gonna lead nowhere  
I won't let  
won't let it go down in flames

don't /4x

let it go down  
don't let it go down in flames  
know we'll find the exit sign  
and we're gonna be okay  
the smoke in the air is gonna lead nowhere  
I won't let  
won't let it go down in flames
