AJ Mitchell, Down In Flames

what you're feeling now is a sudden rush getting mad, lashing out but ui think it's love we don't talk for days, try to reach your phone so I am done making plans when you call it off I don't know what to say baby is it too late? we just need to trust and not mess it up sit it down talk it out just the 2 of us

so don't be afraid if the room gets hotter I'll be putting this putting this fire out we'll be putting this fire out

don't /4x
let it go down
don't let it go down in flames
know we'll find the exit sign
and we're gonna be okay
the smoke in the air is gonna lead nowhere
I won't let
won't let it go down in flames

if you need your space
I'll give you a break
give you time on your own just to clean your head
but when you say go
think you mean to stay
I'll be here till the end iwon't go away

don't be afraid if the room gets hotter I'll be putting this putting this fire out we'll be putting this fire out

don't /4x
let it go down
don't let it go down in flames
know we'll find the exit sign
and we're gonna be okay
the smoke in the air is gonna lead nowhere
I won't let
won't let it go down in flames

it's like our hearts out of focus and we didn't even notice I won't let you down I won't let you down again what we've nuilt isn't broken but it can happened in a moment and there ain't no way to burn when the fire's out

don't /4x
let it go down
don't let it go down in flames
know we'll find the exit sign
and we're gonna be okay
the smoke in the air is gonna lead nowhere
I won't let
won't let it go down in flames

let it go down don't let it go down in flames know we'll find the exit sign and we're gonna be okay the smoke in the air is gonna lead nowhere I won't let won't let it go down in flames
