I won't, I won't, I won't, I won't cause I came too far

[Verse 1:]

I trying to know what's going on  
Echoes on my cellular phone  
I know this couple I don't missing  
Could it be the feds still listening  
See I gat to beat those kisses  
Ain't time for the miscellaneous  
And they proceed to keep on watching  
Cause I've seen them lately  
Interrogated my mum  
Locked up half of my crew  
But I can guarante one thing that t won't let you.

[Chorus:]

I won't let you lock me down  
I won't let you push me round  
I won't let you stop me now  
I won't cause I came too far  
I won't let you ruin my day  
I won't let you stop my pay  
I won't no not today  
I won't cause I came too far

[Verse 2:]

Devil's always watchin' me (watching me)  
Evil's always stalkin me (stopping me)  
God has been protecting me (protecting me)  
And that's how I got this far  
Cause when you look at me you'll see an angel  
Can't believe I've been through half the things that I went through  
Cause everyday I see a face (my face)  
This come true by the human race (my race)  
Please don't you judge me unless you know me  
Cause I won't let you

[Chorus]

[Bridge:]

Came too far to turn back now (too far) 2ce  
Ain't nobody goin' stop me (can stop me) 2ce  
Came too far to turn back now (too far) 2ce  
Ain't nobody goin' stop me (can stop me) 2ce

[Chorus]
