Baby I miss you everyday right now I can't breathe This is what you do too me when you go far aw  
(Far away)  
(My body needs your body)  
AKON:  
I just realized that I don't like to be solo  
(Like to be solo)  
And you my type of girl that I would never let go tho  
(Never let go tho)  
She like to ride to the rhythm and she know how to give them no promo  
(Give "em no promo)  
she let me whine just a little then she grind on my middle like a gogo dancer Know a nigga got a ro  
Got me in a transer  
In the middle of Atlanta  
Belly dancing like banaza  
What you do to me if I ain't know no better it will be new to me  
Ahhh it's the only you for me, and that loyalty you bringing is what's true for me Ohhhh  
I know I bring up drama everyday Baby don't run from me  
My body needs your bodyyy Please don't go far away  
Baby I miss you everyday right now I can't breathe This is what you do too me when you go far aw  
(Far away)  
(My body needs your body)
