Akon, Tomorrow

[saschali]
ooh yeah
oohhh yeah, ooh oh
walking through a naked house
going through our life, my mind tries to find the
point and time my love walked out
bcoz we became a lie, gave you all my time
who knew my eyes would tear
bcoz we've come so far just to grow apart
you was to blame, how could you see?
sometimes you missed a mark
lights that shine in the dark
[akon]
im feeling like the world is leaning on me
so am i worth it, baby come on after me
but if its meant to be, then here wait and see
if theres a possibilty, possibility
that tomorrow. that i can promise you
if theres a possibility, possibility
that tomorrow. that i can promise you
if theres a possibility, possibility
that tomorrow..
[saschali]
never felt, i never felt like i was seeing
it was just another trophy you would bring on the scene
you cant be blamed, it was slept around me
always knew what to say to keep my ego stray
& i wish you werent gone
but im glad im free, thanks for how you helped me
find a spot to help move on
look back on me on your time with me
[akon]
im feeling like the world is leaning on me
so am i worth it, baby come on after me
but if its meant to be, then here wait and see
if theres a possibility, possibility
that tomorrow. that i can promise you
if theres a possibility, possibility
that tomorrow. that i can promise you
if theres a possibility, possibility
that tomorrow..
[saschali]
its real hard (the ends not far)
in the blink of an eye (so fast, so soon)
i hope you call once again
too much is passed and never be friends
(im so scared) im so scared (?????)
wont get caught up in this frozen frame
[akon]
im feeling like the world is leaning on me
so am i worth it, baby come on after me
but if its meant to be then here wait and see
if theres a possibilty, possibility
that tomorrow. that i can promise you
if theres a possibility, possibility
that tomorrow. that i can promise you
if theres a possibility, possibility
that tomorrow..(x2)
[saschali]
i'll be there, i'll give you one more try
wont let it pass me by (x2)
