

Alan Walker, Alan Walke feat. K-391 , Martin Tur

We used to hide under the covers
Serenade each other
With careless melodies
Something buried deep inside us
The major and the minor
We're like piano keys

You played for me
You played for me, oh oh
You played for me

I swear it, even in my sleep
I hear it like the memory
Of every thing we used to be
You played for me

You played for me
You played for me

We couldn't stop the world from turning
It was like a whirlwind
Scattered us like leaves
But I'm stuck inside a feeling
The song that never leaves
We were like a symphony

You played for me
You played for me, oh oh
You played for me

I swear it, even in my sleep
I hear it like the memory
Of every thing we used to be
You played for me

You played for me
You played for me

You and me
You and me
You and me
You and me
You and me
You played for me

I swear it, even in my sleep
I hear it like the memory
Of every thing we used to be
You played for me
