

Alan Walker, Lovesick

Everynight before i sleep
I pray that you will come to me
A million million miles away
we'll meet again someday

I know that we'll find a way
We'll sing bitter melody
and add a sweeter harmony
A symphony we'll make

So, sing for all the tears we cry
A song for when we say goodbye
Then everytime we close our eyes
We'll hear our lovesick lullaby

La la la la la

I remember what you said
I got you stuck in my head
Did you think i would forget
The melodies you sang

Oh when you move me
Like nobody moves me
You're playing my heart stings
like La da di da da
