Alarm, The, The Rock

Alarm, The Change(remastered) The Rock I'm a man who bites hard on the bullet of silence If only you could feel the pain i hide Know me, like i know you

Still water running deep in the cavern of my soul So many roads lead nowhere Know me, like i know you

Like a rock, waves clash over me Standing silent, waiting to be set free

The rock, the rock, the rock Will never let you down The rock will never fall Or tumble to the ground The rock, the rock, the rock Will never let you down The rock will never fall Or tumble to the ground Like a rock

I've been accused of being many things None of them ever hit the mark Know me, like i know you

Like a rock, waves clash over me Standing silent, waiting to be set free

The rock, the rock, the rock Will never let you down The rock will never fall Or tumble to the ground The rock, the rock, the rock Will never let you down The rock will never fall Or tumble to the ground Like a rock

The rock, the rock, the rock
Will never let you down
The rock will never fall
Or tumble to the ground
The rock, the rock, the rock
Will never let you down
The rock will never fall
Or tumble to the ground
Like a rock

Hiraeth, hiraeth, hiraeth
