

Alessia Cara, Rooting For You

got me feeling like the elephant
in every room I am walking into
we started off innocent
till I got pulled right into your issues

I am tired of sending hugs and kisses
I am tired of all your burnings bridges

it's like damn
why you gotta be so cold in the summertime?
I was really rooting for you
I was really rooting for you
it's like damn
why you gotta be so cold in the summertime?
I was really rooting for you
we was really rooting for you

now I see you're having so much fun with everyone
you had so much fun making fun of
did you go and bump your head?
did you forget where you came from

I am tired of sending hugs and kisses
I am tired of all your burnings bridges

it's like damn
why you gotta be so cold in the summertime?
I was really rooting for you
I was really rooting for you
it's like damn
why you gotta be so cold in the summertime?
I was really rooting for you
we was really rooting for you

I am not even brokenhearted
I am just a little disappointed
what a shame
we coulda had a good thing
you let go of a good thing

it's like damn
why you gotta be so cold in the summertime?
I was really rooting for you
I was really rooting for you
it's like damn
why you gotta be so cold in the summertime?
I was really rooting for you
we was really rooting for you
it's like damn
why you gotta be so cold in the summertime?
I was really rooting for you
I was really rooting for you
it's like damn
why you gotta be so cold in the summertime?
I was really rooting for you
we was really rooting for you
