

# Alesso, I Wanna Know (ft. Nico & Vinz)

I've been hit by stars, a beauty you are, a beauty you are  
Day turns into night, you light up my dark, you light up my dark

You're the one that I see waking up next me  
And I hope it's the same for you  
But you play with my mind when you sand me these signs  
And I see other guys get them too

I wanna know /2x  
Where do we go /2x  
Why are you keeping me on hold  
Don't wanna leave this place alone  
Is it a 'yes' or is it 'no'?  
I wanna know /2x

Diamonds in your eyes cover your lies  
Cover your lies  
Trust me we can be special tonight  
special tonight

You're the one that I see waking up next me  
And I hope it's the same for you  
But you play with my mind when you sand me these signs  
And I see other guys get them too

I wanna know /2x  
Where do we go /2x  
Why are you keeping me on hold  
Don't wanna leave this place alone  
Is it a 'yes' or is it 'no'?  
I wanna know /2x

Trust me we can be special tonight

I wanna know /2x  
Where do we go /2x  
Why are you keeping me on hold  
Don't wanna leave this place alone  
Is it a 'yes' or is it 'no'?  
I wanna know /2x
