

# Alesso, Sad Song (feat. TINI)

i'd go to the moon  
just to get close to you  
but sitting in your room  
I feel so far far far away  
you know what to do to pull me into you  
cuz every time you move  
you take my breath breath breath away

when I hear you  
suddenly off my feet  
so baby come through  
I'll pay you on repeat

you're singing a sad song  
but you make it sound happy  
you got the perfect words  
to hurt me so  
hurt me so good  
you're singing a sad song  
but you make it sound happy

you're playing my heart  
and I am falling apart  
just like I knew I would

tell me why o save every last dance for you  
and everything you say  
I memorize it all  
you know how to get me higher  
even when I wanna cry  
but you're setting me on fire  
just to warm you up

when I hear you  
suddenly off my feet  
so baby come through  
I'll pay you on repeat

you're singing a sad song  
but you make it sound happy  
you got the perfect words  
to hurt me so  
hurt me so good  
you're singing a sad song  
but you make it sound happy
