

Ali Gatie, Running On My Mind

Ever since
I met you
I cannot forget you
You been running on my
running on my mind

Ever since
I met you
Now i know that your special
You been running on my
running on my mind

You been running on my mind
I been running circles tryna find someone like you
But you're one of a kind

I been tryna igure out
The reason that i losy you
Cuz ever snce i lost you
I feel lost all the time

Tell me what you need
I'll get that
You the one foe me
I lost you i regret that

please le me fix the things
I couldn't fix before

Tell me what you want
I'll grab it
Baby you the one
We got the magic

So please let me do things
I didn't do before

Ever since
I met you
I cannot forget you
You been running on my
running on my mind

Ever since
I met you
Now i know that your special
You been running on my
running on my mind
