

# Alicia Keys, Foolish Heart

Foolish heart  
Look what you went and done  
You slipped and you fell in love  
With a lonely baby

From the stars  
You shoulda been more discreet  
Instead of leadin' him into my dreams  
There you go again

Why did you just make up  
Your mind to fly?  
We fell, we fell a million miles  
A milion miles

My foolish heart  
My foolish heart  
I just wish you would stop  
Before you start  
My foolish heart  
I just wish you would stop  
Before you start

Foolish heart  
Who do you think you are  
To go racing away like a fast car?  
Didn't you know that he was faking?

You'll fall apart  
If he doesn't feel the same  
Tyou'll be the one in pain  
Don't go playing with my emotions

Why did you just make up  
Your mind to fly?  
We fell, we fell a million miles  
A milion miles

My foolish heart  
My foolish heart  
I just wish you would stop  
Before you start  
My foolish heart  
I just wish you would stop  
Before you start
