

# All Time Low, Monsters (feat. Demi Lovato and blackbear)

Why do all the monsters come out at night?  
Why do we sleep where we want to hide?  
Why do I run back to you liek  
I don't mind if you fuck up my life?

Another day  
Another headache  
In this hangover hotel  
Getting used to the rhythm  
I know this beat too well  
Tunnel vision's got me feeling like you're the only one I see  
But I know what's missing when I am swimming  
On my lonely luxury\*
