

All Time Low, Monsters (feat. Demi Lovato and blackbear)

Why do all the monsters come out at night?
Why do we sleep where we want to hide?
Why do I run back to you liek
I don't mind if you fuck up my life?

Another day
Another headache
In tis hangover hotel
Getting used to tthe rythym
I know this beat too well
Tunel vision's got me feeling like you're the only one i see
But i know what's missing when i am swimming
On my lonely luxury*
