Uh!  
G-G-6-6-6

You bastard, I'm ripping it faster  
Gotta deal with the fact I'm the master  
I see you dipping in a stall  
Gonna fall through wall  
While I stand tall so  
FEAR ME  
Get in my way, never stay, take it away  
Gotta obey, never your way  
Gotta chill down, I gotta say

I'm gonna slam the trunk  
(Yeah!)  
I'm gonna slam the trunk

Oh, you're coming at me and they say that you're crazy  
A growling gangster with a tongue like a razor  
From what you said, faked, know why you're hated  
Not complicated, you're overrated  
(Uh!)

To growl like fucking computer is in my genes  
Like a mainframe, got a space brain  
Like a pacemaker placed in my brainstem  
In my basement I hide all you fuckers who  
HATE ME  
Like I hate motherfuckers with a back-up plan  
Like I see you skip in the back  
Now gotta back down

Before I slam the trunk  
I'm gonna slam the trunk

Oh, you're coming at me and they say that you're crazy  
A growling gangster with a tongue like a razor  
From what you said, faked, know why you're hated  
Not complicated, you're overrated

You're kind of fabricated  
And your attitude is frail  
Your actions simulated  
Going down, down, down boy

I've got dictation within my veins  
Like a mutation, and a fixation  
On the fucked up rhymes in my narration  
Are you getting what I'm saying, fool?  
FEAR ME  
Get in my way, never stay, take it away  
Gotta obey, never your way  
Gotta chill down, I gotta say

I'm gonna slam the trunk

Oh, you're coming at me and they say that you're crazy (Crazy)  
A growling gangster with a tongue like a razor  
From what you said, faked, know why you're hated  
Not complicated (Oh!) You're overrated (Oh!)
