

# And One, One CREATURES

We're back to creature  
Very hard to understand  
I can't imagine how it happened  
Impossible to comprehend

I feel the danger  
What are things coming to  
They shut their eyes go into hiding  
There's no god for me and you

Why are we creatures  
It's our natural way  
Why are we creatures  
I hear it day by day

I call you creature  
And I'm not behind the times  
Do please forgive me, I'm a rebel  
I hit you right between the eyes

Why are we creatures  
It's our natural way  
Why are we creatures  
I hear it day by day

With all my power  
Against the wall of decadence  
You'll shut your eyes go into hiding  
Time to have some influence

Why are we creatures  
It's our natural way  
Why are we creatures  
I hear it day by day
