

# Android Lust, Another Void

a momentary kiss  
you leave me with your poison  
how will I exist  
all the fluids have left me  
should I compromise  
this artful act of seduction  
admit to my crime  
through my inaction  
taste fills question  
like another void  
precious is flight  
I need to surrender  
defenses annihilated  
retention reduced  
body lacerated
