

Animal Collective, Kinda Bonkers

Life is so French toast to me
If you wait too long
It gets black and weak
If there's fire that's good
But we can't burn it all away for food
Balanced the light from the sky
To your seat on, on your feet
Thought your errors and days

I'm tryna reach out to you
Yes, I am talking to you
You're the one in the room
We'll share a moment
Let's meet
Were a fire with heat
You didn't know
Not me
We all start suddenly
And get carried so far away

Are you seeing you?
Are you seeing me?
/4x

Don't you feel me
Feel your heart shine
Unity of all kind /2x
/3x

Don't you want to
Knowing a mama's nose
Medding woes
Heling herbs
Dancing in a hoopla
Is bonkers
Kinda bonkers /3x

Standing in line again laughing and then
Asking my friend:
"Have you ever felt like really bonkers?"
Kinda bonkers /3x

Under water show
I went to the bro
My head was exploding
I said:
"Man, this Earth is really bonkers"
Kinda bonkers /3x

Irrepressibility
Sustainability
Impossibility
What the fuck happening?

I was like,
"Oh man, oh, Jesus, ohh"
