

Anointed, Anything Is Possible

Anything is possible
In Him all things are possible
All you do is keep the faith
don't give up 'cause it's never too late

Anything is possible
In Him all things are possible
You can have whatever you say
Cast your fears away

There is a way
That you can have everything
that you've always dreamed of
There is a way
Just keep your feet on the ground
while you reach for the heavens
There is a way
It may take a little time
but never stray from the vision
Just keep the faith
You can't give up now

repeat chorus

There is a way
It may be hard for you now,
but it's gonna get better
Your life will change
I've seen it done in the past,
so never say never
Where is your faith
You can speak to the mountain
and it will be moved
That is the way
To receive all He has for you

repeat chorus
