## Anointed, Come Unto Me

## Ohh ohhh

I remember the time
I turned and walked away
Like a lamb who'd gone astray
My life was filled with grief
And every day i searched for relief
But in the distance i could still hear him say

Chorus
Come unto me
If you are weary
And I will give you rest
Come unto me
If you are worried
I'm all the comfort you need
So come unto me
Come unto me

Now if you may find Yourself hopeless or in despair Brokenhearted Needing someone to care You can begin to express All the void and emptiness deep inside He's waiting with his arms open wide To receive you today

## Chorus

You're covered with sorrow
You can't see a tomorrow
I'm all the comfort all you need
So come, come on come on come on
Come unto me
