Archive, Fear There & Everywhere

Right side, Left side, Dark side Over my shoulder They're coming into my space Taking me over Into my eyes my ears Into my thinking I can't wear this feeling anymore

It's seeping seeping seeping into my bones
It's creeping creeping creeping creeping into my home
Fake this
Fake that
It's so ugly
It's just
Fear there everywhere
Burning inside of me
Fear there everywhere
Killing the light in me
It's just
Fear there everywhere
Burning inside of me
I can't live it
I can't live it no more

Small eyes thick lies black cries Rolling us over It's no secret they have Taken the numbers Logged in logged out We stand isolated I just can't breathe
