Take my head

(Hidden Track)

Heal down to me

I've rested with you

I've spend always time

Time with my brothers

Love for my sister

Now I'm fine

And I wanna come home

These been some tears

Many fears about the way

The way that you love

The pain when you're bad

It makes me sad

Totally mad

Now I need to come back home

How beautiful

So wonderful

A beautiful love

Friends 'til the end

Now I'm home

Sweet home
