

# Archive, Words On Signs

Close those eyes down,  
We all fall down,  
Into the space,  
Gone with no trace,  
Feel your heart slow,  
Where will we go,  
Into the sunlight,  
Or the dead of night.  
Theres nobody here for me now,  
Theres nobody here for me now,  
Theres nobody here for me now.  
So much running scared,  
Living breathing dead.  
Theres nobody here for me now,  
Theres nobody here for me now.  
Silence fills you through,  
Time to tell the truth,  
See the words on signs,  
It ends with a blink of an eye.
